To Whom it May Concern:

KelTam has only been in business about a year. We are pretty much a one man show; although with great expectations for the future. I was not aware of the requirement to submit an Annual Report. Additionally, I received the second notice without ever receiving the first. I called to relay this to Dept. of State and was told to send in the report with a check for \$150 requesting the late fee be waved.

I request the late fee be waved for the reasons stated and would appreciate favorable consideration. Be assured that I am now aware of the requirement and will not be late in the future.

Sincerely yours,

President
KelTam
